

Community Service in the McVile Area

The American Legion Auxiliary Ole Semling Unit 135 of McVile is proud and happy to be able to deliver Care Animals to Nelson County Health System Hospital, following a delivery to the District 2 Spring Meeting.

Jennifer Rustin, DON, is pictured as she accepted the donation with open arms and hands petting the donated animals! These animals will 'lie-in-wait' near the Emergency Department and are ready for quick distribution when a scared child needs some comfort. Some of the animals donated to the hospital will also be ready for a ride in the McVile Ambulance, for the same reason.

Our unit is pleased to be able to receive these Care Animals from the Children And Youth Program of the American Legion Family. There is great pride in anything that goes on at a small rural town health center and this donation really warmed many hearts now and will again in the future.

Pictured with a big smile are Nelson County Health Services Foundation Director, Kenzie Engen, holding a basket of donated Rada cutlery. The fun basket was a donation from Ole Semling Unit 135 for the auction at the Diamonds and Denim Event sponsored by the foundation. The gala will take place in Lakota, ND, one of the areas served by the health system.

We want to thank Don Weible and his assistants for the great job he does as part of the American Legion Family's Children and Youth Program.
