University of North Dakota

About

Many students would say that learning about government is dull and boring; past participants would tell you that ALA Girls State is one place that learning about government is anything but boring.

At ALA Girls State, citizens are divided into cities, two cities form a county, and all counties combine to create the mock state of Flickertail Girls State. Citizens learn about city, county, and state government by running for offices, holding elections, writing laws, and participating in various other activities. Participants don't just learn about the government process- they are the process!

Who can attend?

North Dakota American Legion Auxiliary Flickertail Girls State is for girls who have just completed their junior year of high school. All eligible girls are encouraged to apply! ND ALA Flickertail Girls State does not discriminate against any individual on the basis of race, creed, color, religion, disability, gender expression/identity, national origin, or grade point status. Exchange students and students that are homeschooled are all welcome to attend.

Funding

The fee for North Dakota American Legion Auxiliary Girls State is \$325. Students are fully sponsored by North Dakota American Legion Auxiliary Units and community organizations. If you have not been contacted by an Auxiliary or Post, please let us know and we will connect participants with a sponsor.

Scholarships

The Samsung American Legion Scholarship supports high school juniors at Girls State who are descendants of U.S. wartime veterans, with preference given to Korean War descendants. One ND ALA Girls State attendee earns a \$1,250 Samsung scholarship and becomes eligible for larger national awards up to \$10,000.
